SUMMARY

I started my master's in October 2024. I became a class representative in my first semester and learned teamwork and leadership qualities. I also became the placement committee head and understood how the hiring process and on-campus placements work. In the second semester, I became President of the student society and achieved a certificate and medal for completion of the full-stack development in Java course. Have done an internship as Web Developer intern at Talentrise Technokrate PVT LTD.
